

# Until I Fall Away

## Gin Blossoms

I want to tell if I am or am not myself  
It's hard to know, how far or if at all could go?  
I've waited far too long  
For somethin' I forgot was wrong  
I don't know all the answers  
I think that I'll find  
Or have it within the time  
But it's all that I'll have in mind  
Until' I fall away  
I won't keep you waiting long  
Until' I fall away  
I don't know what to do anymore  
Until' I fall away  
My fear pretend that I'll never be in love again  
It's real to me but not like these fools  
And not like this scene  
I won't find or have it within the time  
If it's all rusted and fade  
In the spot where we fell  
Where I thought I'd left behind  
It's loose now but we could try  
Until' I fall away  
I won't keep you waiting long  
Until' I fall away  
I don't know what to do anymore  
Until' I fall away  
When there's no good answers  
And no new questions  
Another personal disaster  
There's nowhere to go but down  
Until' I fall away  
I won't keep you waiting long  
Until' I fall away  
I don't know what to do anymore  
Until' I fall away  
Until' I fall away  
Until' I fall away  
Until' I fall away
