Castle

Samantha Jade

Block by block, every mile I walked
Every tear that I dropped, bruised and broken
Piece by piece, yeah you shattered me, but I
Brick by brick put it back to this
Told me I should quit, that I was damaged
Heard you say I was rubble in your eyesI made your words my castle
When you said that I couldn't
'Cause I wouldn't fall
I took the pain you gave
And turned it into a palace
Now I'm standing tall
It's my kingdom that I've built up
From these scars and nothing at all
I made your words my castle
When you said that I couldn't
'Cause I wouldn't fallGolden gates came to keep me safe
From the world outside, the world I knew
Guards in place 'cause it keeps me safe from youWhat good is a king with no queen of hearts?
Folded your hand while I played the part
I was all in but you left me with a house of cardsI made your words my castle
When you said that I couldn't
'Cause I wouldn't fall
I took the pain you gave
And turned it into a palace
Now I'm standing tall
It's my kingdom that I've built up
From these scars and nothing at all
I made your words my castle
When you said that I couldn't
'Cause I wouldn't fall
No, I wouldn't fall
