

Man on the Moon

[Nick Carter](#)

If I had a magic wand, I would go back in time
I'd be your Jimmy Dean and you'd be my Marilyn White
I'd go up, up with you, I'd go up, up with you
I'd be your man on the Moon
I'd be your man on the Moon I'd have a rocket ship, I'd circle around the sun
Caught up in your angel kiss, we'd be forever young
I'd go up, up with you, I'd go up, up with you
I'd be your man on the Moon
I'd be your man on the Moon And I'd wake up, dreams can take us
Anywhere we wanna be
We can make believe, you and me If I had a rocket ship, I'd circle around the sun
Caught up in your angel kiss, we'd be forever young
I'd go up, up with you, I'd go up, up with you
I'd be your man on the Moon
I'd be your man on the Moon
I'd be your man on the Moon
