I Feel The Rain

The Trews

I thought this was
Crazy enough to work
You leave and prove me wrong
I thought this was and would be
enough but you change and now
you're not moving
I feel the rain
how is it that time don't fail
to tell you what is real
I feel the rain
you don't have to explain
you held my hope you were caffeine
for my soul and my heart
I'm tired without you
it's in your eyes your not
fooling 'round this time
you are gone
I'll try to get through

feel the rain
how is it that time don't fail to
tell you what is real
I feel the rain
you don't have to explain
I know nothing last forever,
I know it's probably for
the better
and I know like rain this
will pass over in time
but I thought this was
crazy enough to work
it didn't work at all...
I feel the rain
how is it that time don't
fail to tell you what is real
I feel the rain
you don't have to explain
