

# Understanding (feat. V)

## Goodie Mob

I need some understanding cause I'm losing my mind  
I know I'm not your lady and your house isn't mine  
Just need some understanding just to keep me in line  
I know you grindin' baby but see you're bout me sometime, sometime Listen, I'm tryin' to put some distance in  
between things  
But damn it's a dream team  
Nothing anyone should have to hurt for  
But tell me who does number two work for  
I know you're wondering what is this  
You're so much more than just a mistress  
Babe, go get whatever you want on your wish list  
But don't ask me about my business  
Now with that being said, baby I love you  
She's beside you, not above you  
Hmmm, there's goes a smile, see I know you tough  
Plus I gotta ho underneath you to hold you up I need some understanding cause I'm losing my mind  
I know I'm not your lady and your house isn't mine  
Just need some understanding just to keep me in line  
I know you grindin' baby but see you're bout me sometime, sometime Baby, come help me take my hair down  
With my back to you, you in this stare down  
I got two shoes, you got new shoes  
While you mad cause I keep another pair around  
Smile, you ain't acting the same today  
Guess I can't fuck all the pain away  
I'm a real nigga, I can't let you hurt  
Damn, I wish I had a met you first I need some understanding cause I'm losing my mind  
I know I'm not your lady and your house isn't mine  
Just need some understanding just to keep me in line  
I know you grindin' baby but see you're bout me sometime, sometime (Big Gipp)  
Understand little mama you ain't the main squeeze  
But shit, you got some house keys  
I can't put you on the same boat  
But I can dock at the same port  
I'mma fuck you in the sun hon  
But I'mma run when the moon come  
I don't love but I like hard  
I don't kiss but the dick hard I need some understanding cause I'm losing my mind  
I know I'm not your lady and your house isn't mine  
Just need some understanding just to keep me in line

I know you grindin' baby but see you're bout me sometime, sometime(T-Mo)  
I feel guilty just to think about it  
Trying to find ways to think around it  
When I look at you I can see her  
I be wishing you could be her  
It's obvious, I'm overzealous for you  
If she met you, she'd be jealous of you  
You scare me woman cause you're every woman  
I could change you, but don't you let me woman I need some understanding cause I'm losing my mind  
I know I'm not your lady and your house isn't mine  
Just need some understanding just to keep me in line  
I know you grindin' baby but see you're bout me sometime, sometime
