

# Black Fire

## Pacific Express

We come from over the dark horizon sky  
With twisted tales of sacrifice  
To imagine or believe all the glory of the free  
Hunting all day an endless cry  
The things I've seen I can't deny  
Sinners, saints all mixed in one  
The dawn of time has begun  
Why can't you see what they're doing to me?  
Is it fair that I'm dying in vain?  
Once in a land of sacrifice  
Now only valleys of demise  
Shadows of a pale blue moonlight  
Ride the waves of entity  
Why can't you see what they're doing to me?  
Is it fair that you all die in vain?  
Ride with the steel and the power of the sword  
Stand up and fight now and forever more  
Rise through the night sky with daylight's desire  
To be free there must be black fire  
Through the day and through the night  
With dragons heart the warrior strikes  
This is the day that they'll be known as my enemy  
Why can't you see what they're doing  
To what we believe in, we rise through the pain  
Ride with the steel and the power of the sword  
Stand up and fight now and forever more  
Rise through the night sky with daylight's desire  
To be free there must be black fire  
We come from distant lands, we travel so far  
Can you see the bleeding scar?  
The prizes of life we fail to win  
'Cause we doubt the power within, yeah  
Oh oh oh oh  
Why can't you see what they're doing  
To what we believe in, we rise through the pain  
Ride with the steel and the power of the sword  
Stand up and fight now and forever more  
Rise through the night sky with daylight's desire  
To be free there must be black fire, black fire
