Simply Beautiful

Annie Sellick

Oh listen to the singing of the robin in the meadow
Who knows if she is singing' bout the changes in the weather
Who knows if she is singing bout the promises of heaven
But she sure sounds good to me

Oh listen to the cooing of the baby in the cradle
Who knows if she is cooing cause the Kitty's on the table
Who knows if she is cooing just because she's able
But it sure sounds good to me

Simply beautiful
Simply wonderful
Simply life goes on
Life goes simply on and on

Oh, listen to the babbling of the little brook a-fallin'
Who knows if she is babbling cause she's falling down the mountain
Who knows if she is babbling cause of something she's forgotten
But she sure sounds good to me

I listen to the one I love with all of my heart
He's telling me he misses me when we are apart
He's telling me he loves me from the bottom of his heart
And that sure sounds good to me

Simply beautiful
Simply wonderful
Simply life goes on
Life goes simply on and on
