Love
I know that I did you bad and badder
Must have been insane
As an old mad hatter thenBut pride is a fairy tale sweet darlin'
Lonely is a cold hard fact
I don't want to know like without your kiss
All I really want is backWords
Words that I said in a heated moment
Still can't believe that I said
I wanted outAfter all the times that I spent wishin'
I'd just shut my trap
Think that I could find those precious few words
That'll bring you backI don't want to know what tomorrow holds baby
Nothing gonna come of that
Everything I need is behind me lately
Don't you know it's fadin' fast, fast
Baby won't you take me back?I don't want to know what tomorrow holds baby
Nothing gonna come of that
Everything I need is behind me lately
Don't you know it's fadin' fast, fast
Baby won't you take me back?Time
Time that we had was a priceless treasure
Gone like a junk mail letter
I threw outI don't want to think about the future
'Cause anything that's in my path
Wouldn't be as good as this I know
If I could only just go backNow, I don't want to break your heart sweet darlin'
I know, you've had enough of that
I don't want to know life without your kiss
All I really want is back
Back, back
