

# Teeth of the Shadow Horde

## Autopsy

The sun has turned black the shadows have come  
Pulverized bones and skulls will be one  
The shadows are free, Releasing the plague  
All of the venom and volatile hateTendrils of darkness  
Seeking out souls  
Black fangs sinking deep  
Eyes like black holesDagger filled shadows are cleaving red flesh  
Dark paranoia poisons the rest  
Minds stripped and raped, flesh strewn in heaps  
All thoughts betraying, man's dark side unleashedSnuffing out light, snuffing out life  
Dark tentacles strangling, cranial mangling  
Humanity Mirrored in Horror and death  
Invoking pure madness and stealing all breath  
The wake of the slaughter leaves mountains of limbs  
and traces of shadows where all death begins
