What You're On

Rogue Traders

Don't think that it's over now
You'll feel better soon
Move on to the hallowed ground
'Cause it ends when I met you
And it's my face that you'll lean toIf you succumb, what's done is done
If you succumb
Why don't you tell me what went wrong
If you succumb, what's done is done
What's done is done
Why don't you tell me what you're onDon't give up, you have a friend
I still see you smile
Take a look and don't pretend
Wind away the miles with you
If it's my face that you'll lean toIf you succumb, what's done is done
If you succumb
Why don't you tell me what went wrong
If you succumb, what's done is done
What's done is done
Why don't you tell me what you're onIf you succumb, what's done is done
If you succumb
Why don't you tell me what went wrong
If you succumb what's done is done
What's done is done
Why don't you tell me what you're on
