New Mexico

St-Eugene

I had it going for a while now
For a moment all the stars now
They were aligned
I remember everything
Everything was on my side

Sometimes in life you go down to go up
And sometimes in life you go up to go down
Sometimes in life you go down to go up
And sometimes in life you go up to go down

I have to find a way to keep my head in the clouds
I have to find a way to keep my head in the clouds
Today is a happy day, today is a happy day
I figured I could spend
Spend it with somebody nice

Sometimes in life you go down to go up
And sometimes in life you go up to go down
Sometimes in life you go down to go up
And sometimes in life you go up to go down
