Work It Out

Carl Thomas

Talk to me baby, if you havin' issues
Don't be afraid to call me, I'm never too far from you
When you need a friend for counseling I'll be there
Through everything so you don't have to worry
You don't have to cry about it
Scream about it
I'll be there to talk about it
And make it alright
You don't have to make a scene about it
Don't pressure yourself
I'll be there to work it out for you
Baby keep your head up
Your messing up your makeup
I won't let that bring you down
'Cause there's so much more
In life and love to live for
Tomorrow will be a better day
The sun will dry your tears away
And I'll be standing there
You don't have to cry about it
Scream about it
I'll be there to talk about it
And make it alright
You don't have to make a scene about it
Don't pressure yourself
I'll be there to work it out for you
For you there's no mountain high, or valley low, yeah
There's nothing to replace this love
For you, I'll do almost anything
'Cause baby, your the one I want to wear my ring
You don't have to cry about it
Scream about it
I'll be there to talk about it
And make it alright
You don't have to make a scene about it
Don't pressure yourself
I'll be there to work it out for you
Baby you know I wanna work it out for you
I can see it now, come on

I wanna work, I wanna work it out for you
You don't have to cry about it
Scream about it
I'll be there to talk about it
And make it alright
You don't have to make a scene about it
Don't pressure yourself
I'll be there to work it out for you
