

Deus Ex Homine

The Great Discord

Grabbing hold then letting go,
Always yes and never no
We are lost!Grabbing hold then letting go,
Always yes and never no
We are lost!Transcending, absorbing,
redemption, improving...Dislodge sanity, make it better
Separating mind from matterBroken reasons, you are guilty
Don't look back at him
All reasons, and passions
We are damnedTranscending, absorbing,
redemption, improving...
Dislodge sanity, make it better
All consuming hatred, passions
And thus you're condemned!
