No Secrets

Lobo

I have no reason to check up on
Where you are all the time
We are so close it's almost like
You can read my mind
I have no secrets from you
And I know that you have no secrets from me
We have a love that is built on trust
That's what we have you and me, no secrets
I have never even once
Had to worry bout you
And that won't change as the years go
By that's something I just can't do
You know that I have no secrets from you

And I know that you have no secrets from me
We have a love that is built on trust
That's what we have you and me
I have no secrets from you
And I know that you have no secrets from me
We have a love that is built on trust
That's what we have you and me, that's what we have
No secrets
No secrets (We can't live)
No secrets, no, no, no, no
No secrets
No secrets
No secrets
No secrets
(FADE)
