

Magic Place

The Mud Howlers

We found a magic place
where the pines dance in pace
the freshest water runs down the heights
and fireflies light the nightsThe sun led our way
when the moon was not awake
Climbing the highest mountains
we played on lavender carpet
Walked down the river
the sound made us shiverDon't you realize, we live in paradise
so come on open your eyes
and see for yourself I'm not lyingThe power of the land
It lies beneath the ground
Magic kingdom underneath
feeds the town and the people all aroundHide the forbidden fruit
ancestors taught the youth
If you search you will find
keep the secret stay kindDon't you realize, we live in paradise
so come on open your eyes
and see for yourself I'm not lying
