

Seven Seas

Mob Rules

Wisdom comes and childhood goes

Time goes by, intentions growI left my home. I changed the earth with water
miles from hometown, left son and daughterI sailed seven seas

I gave my life to the ocean

Searched for seven keys

On my way to youI sailed the seven seas

I gave my life to the ocean

Searched for seven keys

On my journey back to youNo horizon, big black holes

stormy wind, the sea is coldI left my past, I choose the truth of water
Lost my memories, no son no daughterI sailed seven seas

I gave my life to the ocean

Searched for seven keys

On my way to youI sailed the seven seas

I gave my life to the ocean

Searched for seven keys

On my journey back to youI left my home, I changed the earth with water
miles from hometown, left son and daughterI sailed seven seas

I gave my life to the ocean

Searched for seven keys

On my way to youI sailed the seven seas

I gave my life to the ocean

Searched for seven keys

On my journey back to you
