

Whistle Blower

A Telemetry

try to fight it back
doom and gloom around me
try to hide the facts
torrential rains I see

never once was I equipped
for the task at hand
now I've got it licked
I spill my guts on the land

it's easy - tell all that you know
so sleazy - but that's the way it goes

whistle blower
pulls the rug out from your feet
whistle blower
now you find your in to deep

try to set things straight
though afraid there to far gone
try to control my fate
as new adventures spawn

never once was I afraid
to avoid the cut
now the hope has failed
I dig a deeper rut

It's easy - throw yourself to the lions
so queazy - but that's the way it shows

whistle blower
pulls the rug out from your feet
whistle blower
now you find your in to deep

never let anyone know
what you're really thinking
when it slips to the wrong ear

bye gone' - will be gone for sure

whistle blower
pulls the rug out from your feet
whistle blower
now you find your in to deep
