From the Start

Into the Pacific

VERSE 1:
Press rewind. Turn back time
See the sands. As they climb. The hour glass
View my past. In your light
Complete redemption set me free

CHORUS:
And it's all so clear
You were always right here
In my heart all along

Intertwined we are
Redefined when I saw
You in me From the start.

VERSE 2:
Flash of light. Lightning strike
Through my veins. Can't contain. The wildfire
Grace through faith. Not man made.
Humanity saved by The Way

BRIDGE:
Overwhelmed, by the fire in your eyes!
Enveloped in the raging love of you!
Like a storm , paralyzed, and disarmed,
Iâ€™m Arrested by the way you stole my fears!ï»¿
