

# From the Start

## Into the Pacific

### VERSE 1:

Press rewind. Turn back time  
See the sands. As they climb. The hour glass  
View my past. In your light  
Complete redemption set me free

### CHORUS:

And it's all so clear  
You were always right here  
In my heart all along

Intertwined we are  
Redefined when I saw  
You in me From the start.

### VERSE 2:

Flash of light. Lightning strike  
Through my veins. Can't contain. The wildfire  
Grace through faith. Not man made.  
Humanity saved by The Way

### BRIDGE:

Overwhelmed, by the fire in your eyes!  
Enveloped in the raging love of you!  
Like a storm , paralyzed, and disarmed,  
I'm Arrested by the way you stole my fears!
