Absolutely Everything

Lighthouse Family

You just waltzed in and made the sun shine
Admitted everything has started looking up now
Made me feel like I'm worth a fortune
You brought about a transformation in my life
It's been a long time coming
But we've landed on our feet tonightYou're absolutely everything I'll ever need, baby
'Cause absolutely everything you do is so good
You're absolutely every single thing I need, baby
It must be said I got the most amazing good loveSo much hurry over nothing
You know someday we'll do the things
We really wanna do
Don't you worry over time
'Cause everybody's got their own way of life
Slow down, baby, you'll be landed on your feet sometimeYou're absolutely everything I'll ever need, baby
'Cause absolutely everything you do is so good
You're absolutely every single thing I need, baby
It must be said I got the most amazing good love
