

# Me 'N You 'N the Moon (feat. Jerry Lewis)

Dean Martin

Me 'n' you 'n' the moon  
We two 'n' the moon We don't need to swing in a hammock  
We don't need the nightingale's tune  
All we need to get going  
Is me 'n' you 'n' the moon We don't need a heavenly setting  
We don't need a sleepy lagoon  
All we need to get going  
Is me 'n' you 'n' the moon Just the three of us  
What a situation?  
Just the three of us  
Plus a natural inclination We don't need flowery season  
Love is love December or June  
We can make our own weather  
Just put us together  
Me 'n' you 'n' the moon We don't need a comfortable parlor  
We don't need the nightingale's tune  
All we need to get going  
Is you 'n' me 'n' the moon We don't need a horse and a buggy  
Buggy rides are over too soon  
All we need to get going  
Is me 'n' you 'n' the moon Just the three of us  
What a situation?  
Just the three of us  
Plus the natural inclination We don't need flowery season  
Love is love December or June  
We can make our own weather  
Just put us together  
Me 'n' you 'n' the moon
