

# Amphetamines and Coffee

## The Afghan Whigs

Hey, man what is that you're thinkin'  
Maybe you can get away  
There must be lots of pressure  
And lots of bills to pay Amphetamines and coffee  
It almost makes you gag  
Too many big decisions  
No more time to play Slip into something classic  
Turn on the television  
Ignoring all your children  
Accepting their derision Routine is acknowledged  
With pinnacle precision  
The statistician stares at  
A family in division, hey
