Advisory - the following lyrics contain explicit language:

Ahh haa  
Yea yea  
Ahh haa First of all, we the one and only infamous  
Everybody wanna use the name  
Soundin' all blame  
We come up in the party  
With them shanks and things  
Have you curled up on the floor  
Feelin' the pain  
And nine times outta ten  
We ain't even start the shit  
We finish it  
Then they wanna press charges  
Plus everybody and their mother  
Wanna act tough  
'Til they discover how fast a nigga  
Leave them under white covers  
Was a thumper  
Till he met the forty thunder Now I feel strange  
When I walk by his mother  
It's fucked up  
That's how the ball bounce  
The cookie crumbles  
That's what the guns do  
Dead you, on the humble  
But God forgive me  
Niggas tryin' to hit me  
What I'm supposed to do  
You talk about my life  
And a nigga got a lot to loose  
So I, tuck the heaters  
Then proceed to move

We a mob for real  
You an example You should spread love not war  
'Cause my shit is poppin'  
And I'd be God damned if you shot me  
You should spread love not war  
'Cause you won't feel safe  
Comin' out your crib, knowin' that we got beef  
You should spread love not war  
Just think about your kids  
How they need you alive for your guidance  
You should spread love not war  
'Cause death hurts whole families  
(Yea, yea)  
Imagine it's your mom that grieves Two in the neck  
Yes you will, if you  
Not feelin' me yet  
Outta respect  
Can't stand it man  
You niggas is sex  
Sweatin' hard ain't do shit  
But run your list  
But when a nigga get confronted  
All he do is take the fifth  
Not the long, talk about the four  
Niggas is raw  
You ain't know, now you know  
Leakin' down on the floor  
Never a need for my words Believe what you heard  
Never flash a gat and go bust it  
That shit is absurd  
'Cause I be right back  
To my brother say word  
You got to drive, no doubt  
I cock it bein' tougher for herbs  
'Cause the, plot is power  
An I do it for hours  
Won't save me for a minute  
Till I move on you cowards  
Direct, drama to us  
Infamous be the ones and we rowdy  
Million dollar ballad  
Make an album, get classes You should spread love not war  
'Cause my shit is poppin'  
And I'd be God damned if you shot me  
We should spread love not war

'Cause you won't feel safe  
Comin' out your ass, knowin' that we got beef  
You should spread love not war  
Just think about your kids  
How they need you alive for their guidance  
We should spread love not war  
'Cause death hurts whole families  
Imagine it's your mom that grieves  
Look around your  
Surrounded by the M O B  
B D E E P  
Infamous niggas rep  
Queens bridge housing P's  
My dunns come through  
With the big long chains  
Plus we got guns, to blow your brains  
Niggas learn when they feel the pain  
Know what sayin'?  
Straight like that  
Standin' ovation with Max  
We clap niggas for less  
Splash niggas for laughs  
Shift the game  
Raise your odds  
I need ninety three thousand  
For sixteen bars  
Put out the movie  
The hoods rush the stores  
Seven hundred thousand  
From out the doors  
We the most thorough  
Need I say more?  
The hoes love the morgue  
'Cause we so raw  
Handcuff you whore  
When P come through the scene  
Glowin' like a black light  
On white clothin  
You should spread love not war  
'Cause my shit is poppin'  
And I'd be God damned if you shot me  
We should spread love not war  
'Cause you won't feel safe  
Comin' out your ass, knowin' that we got beef  
We need to spread love not war  
Just think about your kids  
How they need you alive for their guidance  
You should spread love not war

'Cause death hurts whole families  
Imagine it's your mom that grieves You should spread love not war  
'Cause my shit is poppin'  
And I'd be God damned if you shot me  
You should spread love not war  
'Cause you won't feel safe  
Comin' out your ass, knowin' that we got beef  
We need to spread love not war  
Just think about your kids  
How they need you alive for their guidance  
You should spread love not war  
'Cause death hurts whole families  
Imagine it's your mom that grieves You should spread love not war  
'Cause my shit is poppin'  
And I'd be God damned if you shot me  
You should spread love not war  
'Cause I don't give a fuck  
(Nigga what's up)  
(War)  
We need to spread love not war
