

Only Getting Younger

Elliphant

We ride into a peek, we can take this shit no longer
Main our mind a lover man a body go weak
I got my blinding truth, I got my best crew with me Walk around with bloody hands, I saw you lick it off
We gonna keep them dirty just to prove a point
Keep it dirty it's for truth that my crew hunger
What, so fuck tomorrow, we only getting younger All universe implode in me, up or dawn in and out no matter G
Now stop falling, I smell like a fox,
Coloring, questioning a blank answer box,
Trip a trigger true twist a tune trick a dumb
Fresh like a fungus smelling shit, smelling numb
We born together, together we keep struggle
So fuck tomorrow we only getting younger Fuck tomorrow we only getting younger
You to follow, we are here to rumble
Grab a hand, take things too long
Drag shit to its fullest, blow me right from wrong
Stand tall, free I fall your call is my ball
Now yours close them doors get blown by a force
of truth missing youth, fuck the shows Skrillex
Loose the goose man fuck it Walk around with bloody hands, I saw you lick it off
We gonna keep them dirty just to prove a point
My a man a lover man a body go weak I got my bloody truth I got my base crew with me
I got my, I got my, I got my Me and the bithces, me and my dogs
Dandelion war keeps digging streets for gold
Feeling kind of tense I need a cup of whiskey
My glass is overfull be careful when you pass me
We dominate this corner with my bass family
Overtake this blocker with the boom energy
Born to be a rocker gotta grow with us
Acting like a sucker, suck it up, suck it all Walk around with bloody hands, I saw you lick it off
We gonna keep them dirty just to prove a point
My a man a lover man a body go weak
I got my bloody truth I got my base crew with me
I got my, I got my, I got my
So fuck tomomorrow we only getting younger.
