Upside Down

[Andrew Maxwell Morris](#)

If it brings you down
Or makes you sad
If she was the best friend
That you've ever had.
I don't want to scream
Or lose my mind
I don't see you often
I see you most of the time

Just cause your words, turn me upside down
Just cause your thoughts, turn me inside out
Just cause you're feelings, turn my world around
Just cause you feel
Like you never feel.

How will you guide me?
Or will you lead me astray
When you're light shines on me
Most of the day.
If you believe that I love you
If you believe that I care
It's just that I'm happier
When you're not there.

Will you catch me, when I fall?
