

# Sixteen

## The Indelicates

So they say I was sometimes cruel  
I dont know if I would say that too  
Oh I, I don't know about that  
Everyday the sky reminds me still  
Yr not here and it always will  
Oh I, I don't know about that  
You

I try my best to play along  
Like nothing's over and no one's gone  
But I, I don't know about that  
I don't know about that  
If I tried harder you'd, still be here  
Is it true?  
Oh I, I don't know about that  
I don't know about that
