

Without A Word

Comeback Kid

In an effort to win
I lost it all
At a standstill
How easily it's said Now eat your words
Everything that I wanted to say
It seemed to die
It all seemed to die on my lips Another broken heart
Another hit and miss
And when nothing else is easy
How easily it's said Words so easy to be said
Harder I try harder I fall
Words so easy to be said
Competition it seems so useless
Words so easy to be said
With an ending all too predictable
Words so easy to be said And once again I've lost it all
