

# Arcadia

## White Sea

Satan worship  
Trash sandwiches  
Suburb lurking  
Teenage virgin  
Erotically speaking They say you're a monster  
Wrong place at the wrong time  
A fear that fulthurs  
Co-ed nightmares, I  
never saw you  
be anything but real kind.  
I guess I'm blind  
Just wasting time  
Walking through the grocery  
Blood is on your hands and on your mind  
Arcadia, a zodiac, killing spree  
Who could forget you?  
We will forget you Who could forget you?  
We will forget you Who would forget you?  
We will forget you Local newscast  
Psychic access  
We've all watched it  
We're sick and twisted  
Obsessively speaking  
They say you're a monster  
Wrong place at the wrong time  
A fear that fulthurs  
Co-ed nightmares, I  
never saw you  
be anything but real kind.  
I guess I'm blind Just wasting time  
Walking through the grocery  
Blood is on your hands and on your mind  
Arcadia, a zodiac, killing spree  
Who could forget you?  
We will forget you Who could forget you?  
We will forget you Who would forget you?  
We will forget you They say you are  
wrong place at the wrong time They say you are  
wrong place at the wrong time Who could forget you?

We will forget youThey say you are  
wrong place at the wrong timeWho would forget you?

We will forget you
