

# I Saw You

[Josh Kelley](#)

I, I saw you  
I couldn't think of what to say  
So, I stumbled to the bar  
And I just froze when I saw your face I didn't know just what to say to you  
And didn't know just who to blame  
But I didn't want to face the days alone  
For the night I didn't get your name So I, I tried to slow  
And whispered softly in your ear  
Then I stumbled to your arms  
To set the stage for what I feared I didn't know just what to say to you  
And didn't know just who to blame  
But I didn't want to face the days alone  
For the night I didn't get your name Fade into my life  
Never getting it right  
Risky fantasies  
Made for what you see inside I didn't know just what to say to you  
And didn't know just who to blame  
But I didn't want to face the days alone  
For the night I didn't get your name I didn't know just what to say to you  
And you didn't know just who to blame  
But I didn't want to face the days alone  
For the night I didn't get your name  
Get your name, get your name, get your name, oh yeah
