

Cry Lonely

[Chris Knight](#)

When the rain runs down your window
And you cant hold back your tears
And youre so afraid to be alone
You know Im always right here You cry lonely, and I come runnin
I come to your rescue, I'll chase your blues away
You cry lonely, but you dont really want me
And I wont be there one of these days You always say your heart is breakin
Then you hear the wolf outside your door
I know you, you just use me
Till you dont need me anymore You cry lonely, and I come runnin
I come to your rescue, I'll chase your blues away
You cry lonely, but you dont really want me
And I wont be there one of these days Someday when you know you really love me
Youre gonna cry my name, and Ill be gone You cry lonely, and I come runnin
I come to your rescue, I'll chase your blues away
You cry lonely, but you dont really want me
And I wont be there one of these days I wont be there
When you cry my name
I wont be there
When you cry my name
