

# Worship manifesto

## Anorexia Nervosa

So on my head the light is one  
Unity manifest  
A star more splendid than the sun  
Burns for my crowned crest  
Burns as the murmuring orison  
Of waters in the west, west Still on the mystic tree of life  
My soul is crucified  
Still strikes the sacrificial knife  
Where lurks some serpent-eyed  
Fear, passion, or man's deadly wife  
Desire the suicide! I hold my cross among you lambs  
Seven mortal wounds for my vanity  
Stigmata of your mockery  
I shall be the last you'll ever see  
There ain't no life  
There ain't no Eden  
Proud ignorance  
Here lies the storm Now forget about love and fight  
Only believe in beauty  
And might  
For the beauty of this final act is  
Love under will  
Love under will! Ici commence la nuit noire de l'me  
Ici s'accomplissent par le feu  
Les oeuvres de l'éternelle lumière Now forget about love and fight  
Only believe in beauty  
And might  
For the beauty of this final act is  
Love under will  
Love under will! Ici commence la nuit noire de l'me  
Ange de glace désertant l'enfer  
Mon corps est un dernier chemin de croix Ici commence la nuit noire de l'me  
Allonge-toi, ' ma mere  
Et vois ce qu'est devenue  
Entre mes mains ta foi Ici commence la nuit noire de l'me  
Abime alentour et silence de mort  
Cadaver corché que lave  
L'affreux silence de ton corps There ain't no life  
There ain't no Eden

Proud ignorance  
The storm lies under your feet  
Get on your knees  
And repent now  
Swear on the cross  
And implore me I stand above the tides of time  
And elemental strife  
My figure stands above sublime  
Shadowing the Key of Life  
Fear, passion, or man's deadly wife  
Desire the suicide!  
Suicide!  
Suicide!
