

I Need More

Brian Courtney Wilson

I need more, I need more from you*
You say you want the things I have for you and more
But you don't want to give me what I'm asking for.
Want you to dedicate your life and make it mine.
I can't believe you sat and wasted so much time,
I need more.
[Chorus:]
I need more from you
Nothing else will do
I need more
I need more from you
How could you think that you could get something for nothing?
I need more, I need more from you.
Time after time you took advantage of my love
You turned your back on me, what were you thinking of?
Now you come crying when it seems all hope is gone-
I can pull you through, but your life is what it costs -
I need more
[Repeat Chorus:] (2x)
Stop trying to front me, I just came to set you free
Love Unconditional is all you'll ever need
For that's the reason that you live and breathe
I need stronger love shown from you to me
I Need more.
I need more, I need more from you.
At night you sit and cry, but you refuse to do me right -
I need more.
I need more from you
I'm calling you to come, but you continue to run'
I need more.
I need more, I need more from you.
Child, can't you see I need you here with me
I need more.
I need more. I need more from you
Leave it all behind, tell the world that you're Mine.
I need more.
I need more'
I need more from you
My hand is out to you, and it's time for you to choose

I need more.
More.
I need more from you -
You just say the word and I promise you'll be heard
I need more
I need more. I need more from you
Show me that you care, I'll come running, I will be there.
I need more
I need more from you
What I need, I need more
Show me what you need, I'll lose the chains and set you free.
I need more from you
Nothing else will do
I need more
I need more from you
How could you think that you could get something for nothing?
I need more, I need more from you.
