

# Dance The Pain Away

**Benny Benassi**

Yeah, I take my time  
Let the tears roll down, from my face  
Wash the pain away  
We are all speeding, lost in this race  
But my heart is in a hearse, can we put it in reverse babe  
Cause I can even feel the drum and bass  
It is drowned out by the beat in my heart place  
I hear that song, but something is wrong  
My mind's a million miles away  
Everybody's going to the floor  
Maybe I don't wanna dance anymore  
Don't wanna dance anymore  
How can you Dance the Pain Away  
How can you Dance the Pain Away  
Touch that dial, I am changing the station  
Cause I can't smile, Like everyone else  
Play my sad song, In heavy rotation  
I won't go out, I am trying to save myself

Cause I can even feel the drum and bass  
It is drowned out by the beat in my heart place  
I hear that song, but something is wrong  
My mind's a million miles away  
Everybody's going to the floor  
Maybe I don't wanna dance anymore  
Don't wanna dance anymore  
How can you Dance the Pain Away  
How can you Dance the Pain Away  
I can't dance tonight, oh everybody movin with the time  
I can't dance tonight, I try to keep it moving  
But I, But I, But I can't dance the pain away  
I can't dance the pain away  
I can't dance the pain away  
I can't dance the pain  
Everybody's going to the floor  
Maybe I don't wanna dance anymore
