

Party

Corey Smith

Well it's Friday night and somebody better knock on wood
I got my hand around this guitar and I'm feelin' pretty doggone good
Don't pinch me if I'm dreamin' 'cause I don't wanna wake up now
I've been waitin' on this moment ever since my Mama pushed me out

Oh yeah there's a party, party

One hell of a time of my life

Oh yeah there's a party, party

When I sing about my trouble and strife

Oh yeah there's a party, party, party

Oh there's a party here tonight

All my friends come and listen to me play my songs

They always drink too much jump and shout and start to sing along

No one can understand it how do we keep selling the clubs out

We ain't even on the radio, what's the fussin' all about

Oh yeah there's a party, party

One hell of a time of our lives

Oh yeah there's a party, party

Let's forget about our trouble and strife

Oh yeah there's a party, party, party

Oh there's a party here tonight

Oh yeah there's a party, party here tonight

Oh yeah there's a party, party here tonight

Oh yeah there's a party, party

And I'm gonna sing about my trouble and strife

Oh yeah there's a party, party

One hell of a time of our life

Oh yeah there's a party, party, party

Oh there's a party here tonight
