War Within

Arkaea

A million to one
A father a son
Waste of a life
With all these years gone by
I still feel the same
I'm trying to change
You left this like
A thief in the night
Run out of ways
And chances to make this right
And I don't feel the same
And I don't blame you
*Bridge
I don't really wanna change your mind
Cause it's all run out
*Chorus
The hardest way to start is over

Medicate till I feel sober
Lifes like war within
The silent lies that pull me under
Tell myself I don't belong here
Lifes like war within
The edge of the knife
The fear on the rise
So many lost
What too many gave away
It wasn't mine to take
Someone failed you
Bridge
Chorus
Feel alive again
Breathing out the sin
Miles away, they're calling out
And I'm alone again
Chorus
