

Justice

Raging Fyah

Tell me what you think about Marcus Tell me what you think about Christ Who made their sacrifice
Tell me what you think about equal rights For all everywhere What you think what you think
What you think what you think about justice What you know what you know
What you know what you know about Love
Why all the segregation we all are but one nation Let's us unite as one
Let us unite as one Tell me what you know about love
Tell me what you know about hate
That keeps us separated
Tell me what you think about equal right For all everywhere What you think what you think
What you think what you think about justice What you know what you know
What you know what you know about Love
Why all the segregation we all are but one nation Let's us unite as one
Let us unite as one
Love oh love so many can testify
Love oh love but you still can't satisfy
You keep on praying
You wish that day would come
When their will be equal rights and justice for everyman
