# Crash & Burn

## Elise Estrada

Ooh, ooh, I'm sorry, babe
How could I be such an idiot?
We're talking through the door please open it
I'm down on my knees and the neighbors can see
That I regret so desperately
Baby, if you please, just hear me out
I really hope to God I can work it out
I'm soaked to the skin, just let me in
You can't believe what a mess I've been
I know that you're hurting, I know I was wrong
I know that for certain, you know we belong
Please let me see you, please open up
I beg your forgiveness, don't let us fall
Give me one more chance
Before we crash & burn
Give me one more chance
Before the point of no return
I'd give everything to make it good again
I'd do anything to get out of this tailspin
Give me one more chance
Before, before we crash & burn, please
Please, baby, don't leave me standing here
Makeup running black in a stream of tears
I think what we had, let's get it back
'Cause losing is you gonna drive me mad
I know that you're hurting, I know I was wrong
I know that for certain, you know we belong
Please let me see you, please open up
I beg your forgiveness, don't let us fall
Give me one more chance
Before we crash & burn
Give me one more chance
Before the point of no return
I'd give everything to make it good again
I'd do anything to get out of this tailspin
Give me one more chance
Before, before we crash & burn
Please, baby, baby, let me come inside
(Come inside)

We can talk it out where it's warm and dry
(Warm and dry)
I really need to have you look into my eyes
(Ooh, ooh)
I want you to believe me when I apologize
Give me one more chance
Before we crash & burn
Give me one more chance
Before the point of no return
I'd give everything to make it good again
I'd do anything to get out of this tailspin
Give me one more chance
Before, before we crash & burn
Ooh, before we crash & burn
