## Arambol Experience

A million years ago  
I headed down the road  
A million years ago  
I headed down Drivin for the south, nowhere down I got the news  
I figured it out a secret search when at last  
A shrunked moose, we could use since we found  
Said, no big deal, next time we leave watchin them go A million years ago  
I headed down the road  
A million years ago  
I headed down Five months still now our turn just like before  
It broke in two straight to earth or so we thought  
The so-line read like it should, of course we knew  
We left a trail, there was no sign they went through Green lights were beginning to fade  
Chevalier runnin' were on our way  
Straight at us from either side  
Looks like we'll run it one more time A million years ago  
I headed down the road  
A million years ago  
I headed down the road A million years ago  
I headed down the road  
A million years ago
