

# Dark Matter

## Cool Octagon

Inside the vehicle, the cold is extreme  
Smoke in my throat kicks me out of my dream  
I try to relax but it's warmer outside  
I fail to connect, it's a tragic divide This has become a full time career  
To die young would take only 21 years  
Gun down a school or blow up a car  
The media circus will make you a star Crushed like a rose  
In the river flow  
I am, I know  
I am, I know Dark matter flowing out on to a tape  
Is only as loud as the silence it breaks  
Most things decay in a matter of days  
The product is sold, the memory fades Crushed like a rose  
In the river flow  
I am, I know  
I am, I know
