Turn Me On

Cowboy Mouth

I was lost within the darkness of the valley of my heart
You took me for a ride and lit me up inside and healed my broken parts
Now you've got me believin' that the world could soon be mine
Yeah you got me believin' that for me you'd walk the lineTurn me on turn me on
Turn me on and on and on and on againIf the job is yours to save me then the cross is mine to bear
And I'm glad that you have found me for the love that we both share
Yeah you've got me believin' that the world is in our hands
You've got me believin' that for me you'd take a standTurn me on turn me on
Turn me on and on and on and on againI'll wait like an ocean that melts in the setting sun
I'll wait for the break of day as I wait for the love you give awayNow the midnight moon is calling and the stars come out to play
You're the light of my salvation don't let me slip away
Yeah you've got me believin' in a better kind of love
Now you've got me got me got me
Turn me on turn me onTurn me on and on and on and on againTurn me on turn me on
Turn me on and on and on and on againTurn me on turn me on
Turn me on and on and on and on again
