New Mexico

Bob Hate

New Mexico

I feel like my headâ€™s going to explode
I see the rattler by the side of the road
I get down on my knees and say â€œTake me, Lord,â€•
That woman was here, but now sheâ€™s gone

I had a dream about you and me

I had a dream about buying up all this sand
Turn this place into a desertland
Took a little trip to New Mexico
Man said you might have been there, but he just donâ€™t know

I had a dream about you and me
and New Mexico

I get down on my knees for one last prayer
Let me die beneath this desert air
