

# Light of Day (OST Californication)

Tommy Stinson

We'll always make it through the day  
There's always gonna be a better way  
Always be someone else's way  
Even when we know we've gone too far  
Closer to the edge is so much further  
Than we'll get without a car  
And everyone's lookin' for some place  
They're just killing more time than space  
Some nights I wish that the sun would  
Never show its face You're so beautiful at night  
The moon's got a way of lighting you  
The way no picture is ever goin' to  
Even when the stars begin to weep  
We'll laugh at the expense of all their grief  
You never made me feel like I'm a creep  
And everyone's lookin' for some space  
We're just killing time all over this place  
Some nights I wish that the sun would  
Never show its face  
Wouldn't want to face the light of day  
With anyone like I'll face the night with you Just look at everyone  
No one really knowing why they're here  
Tryin' so hard not to disappear  
Doesn't take a lot to make you dance  
We're making such a scene  
With two left feet  
Never even sing or hear the beat  
And everyone's looking for some place  
They're just killing more time in haste  
Some nights it feels like the moon is  
Just a light above our graves
