

White Cup

Lil' Flip

White, white, white cup, yes, sir
White, white, white cup, yes, sir
White, white, white cup, yes, sir
White, white, white cup, yeah
I keep a white cup nigga, it's Fliperachi
A.k.a. Mr. I Can Do Dat
A.k.a. The Number One Fly Boy
A.k.a. I Ain't No Sonny No More
But I'm still rappin'
Hey, I keep a white cup, I gotta get my lean on
I got a fucked up attitude once all my green gone
Gotta put my jeans on, gotta put my rings on
Hit the button, crank the motor and put my screens on
Shorty P, roll the dro, damn, you see them hoes?
I don't know where they 'bout to go but, shit, I want to go
Before the show I pour a four and then I mix it up
I take a old school car, then I fix it up
I gotta white, white, white cup
You see my white, white, white cup
I keep my white, white, white cup
I love my white, white, white cup
Now let's drink, nigga
White, white cup in my hand
I gotta white, white cup in my hand
You see my white, white cup in my hand
I keep my white, white cup in my hand
Now let's drink, nigga
Aye, I never lie to my fans not one time
These niggas wanna hit the cup, but ain't drop one dime
What kind of shit is that? Nigga, I'm sippin' that
And on my lap is my strap, that's where my weapon at
Come get it, you want it, you know I got my heat on me
Come get it, you want it, you know I got them keys, homie
They go on cheap, homie, they on the streets, homie
I'm a gangsta so I never run from beef, homie
I'm sippin', flippin', grippin' woodgrain as I roll
I few platinum chains, but I love gold

I like the way it shine, I like the way it glisten

I got the real drank, you, niggas, need to listen
I gotta white, white, white cup
You see my white, white, white cup
I keep my white, white, white cup
(Say, Flip, let your boy Mike Jones)
(Get some of that purple stuff in this white cup, nigga)
White, white, white cup
White, white cup in my hand
White, white cup in my hand
White, white cup in my hand
I keep my white, white cup in my hand
Now let's drink, nigga
Aye, I stay iced up, I gotta get my bling on
A million buzz plus before I put my ring on
Before my ringtones I was gettin' my green on
I told Flip, ?Pour me a four to get my lean on?
Pass me that sunkist, pass me that purple stuff
One hand on woodgrain, the other on that white cup
Mike Jones and Fliperachi, ain't no one like us
I'm rollin' Phantom, the Maybach and we both iced up
I gotta white, white, white cup
You see my white, white, white cup
I keep my white, white, white cup
I love my white, white, white cup
Now let's drink, nigga
White, white cup in my hand
I gotta white, white cup in my hand
You see my white, white cup in my hand
I keep my white, white cup in my hand
Now let's drink, nigga
I know you hear that right
That's a white cup, a money white cup
When we say we got a money cup
That mean we poured up a strong soda
You dig what I'm sayin'?
