

# Summer Lover

**Patrick Baker**

As the sunset does fade away  
And the time that we've spent  
Will just become a memory  
And i will not forget the taste  
As we lay on our backs  
And listen to the crushing wavesWhere do we go  
now that summer's gone  
The seasons are changing  
But my heart hasn't moved onSummer lover where do we go from here  
The summer's over  
spilling the last of you  
wish we could make this last forever  
than we would never part  
though this cannot last forever  
i keep you here in my heartfrom the night that we met you were mine  
All mine  
though you played hard to get  
i knew it was a matter of time  
and i cannot forget the taste  
as we lay on our backs  
we've lost the sights of golden hazewhere do we go  
now that the summer's gone  
the seasons are changing  
but my heart hasn't moved on  
where do we go  
now that the summer's gone  
the seasons are changing  
but my heart hasn't moved onSummer lover where do we go from here  
The summer's over  
spilling the last of you  
wish we could make this last forever  
than we would never part  
though this cannot last forever  
i keep you here in my heart  
Summer lover where do we go from here  
The summer's over  
spilling the last of you  
wish we could make this last forever  
than we would never part

though this cannot last forever  
i keep you here in my heart
