

# High Road

## Night Ranger

Tell all my friends I'm going out to the desert this weekend  
When they find out I'll be gone for a life time or two  
I may start out looking over my shoulder I told you  
I might end up being someone you don't wanna see  
That someone is who I'll be I'm on the high road after midnight  
And I don't think I'll ever go home  
I'm on the right road got the freedom  
It'll never, no never get old Yeah, yeah, yeah See the sun come up, it's a beautiful day to be dreaming  
Well you don't need us  
What you need is a mind of your own  
I got mine you're the one all alone I'm on the high road after midnight  
And I don't think I'll ever go home  
I'm on the right road got the freedom  
And I'll never, no never give up Yeah, yeah, yeah Life can play you like a game  
And if you let it you'll regret it til the end of your days Tell all my friends I'm going out to the desert this  
weekend I'm on the high road after midnight  
And I don't think I'll ever go home  
I'm on the right road got the freedom  
And I'll never, no never give up  
I'm on the high road, caught a red light  
And I think that I might have been stoned  
I'm on the right road chasing freedom  
And I'll never, no never give up  
Yeah, yeah, yeah  
Yeah, yeah, yeah  
I'm on the high road yeah, yeah, yeah, yeah  
I'm on the right road, yeah, yeah, yeah, yeah
