

Don't Feel

[**Julia Nunes**](#)

I knew it was right
To be alone tonight
While I sat here and watched you cry
And I don't feel anything
I don't feel anything
I don't feel anything
I don't
I've been frozen
Fragile and afraid
But it's too easy to manipulate
Like I'm watching from outer space
And I don't feel anything
I don't feel anything
I don't feel anything
I don't
It's like I took a break
Years with nothing to save
Now I know that my mistake
Wasn't loving you
It was letting that get in the way
Cus I don't feel anything
I don't feel anything
I don't feel anything
I don't,
No I don't, no I don't
No I don't, no I don't
No I don't, no I don't
No I don't
No I don't, I don't, I don't
