

Still Swingin (ak9 Remix)

Papa Roach

Go!
That's right!
Go, go, go
Number One, step it up
Spit the fire, we're back get up!
Count me in and turn it out
We're killing it, go burn it out
Never change, never break I'm the real, you're the fake
Set it up, go underground
You feelin' it, this future sound? Non-stop
Devastating everything
On Top
Never coming down
I've got my hands in everything
Non stop
I'm never coming down
We're just living for today Keep our light on in the haze
Yeah forever we will stay We are the ones still swinging
We are a beacon in the dark
A lighthouse risen from the heart
We've been here from the start
We are the ones still swinging I'm dangerous, passionate
Watch your back
They're stabbing it
Hold on and hold tight
I slash your faces every night
We don't belong
Never will, never care We always kill
Suit me up
And I will attack
Cause P Roach is the new black
Non-stop
Devastating everything
On Top Never coming down
I've got my hands in everything
Non stop
I'm never coming down We're just living for today Keep our light on in the haze
Yeah forever we will stay
We are the ones still swinging

We are a beacon in the darkA lighthouse risen from the heart

We've been here from the start

We are the ones still swinging

We're the ones still swinging (ones still swinging)

We're the ones still swinging (ones still swinging)

We're the ones still swinging (ones still swinging)

We're the ones still swinging (ones still swinging)

We're the ones still swinging (ones still swinging)

Non-stop

Devastating everything

On Top

I'm never coming down

I've got my hands in everything

Non stop

I'm never coming down

We're just living for today

Keep our light on in the haze

Yeah forever we will stay

We are the ones still swinging

We are a beacon in the dark

A lighthouse risen from the heart

We've been here from the start

We are the ones still swinging
