Cover My Eyes

The Birthday Massacre

I remember the clouds in the summer
And how the light kissed my eyes
When I was a child
It was always this: a life that I left behindRemember the sun
Remember the rain
They're never gonna touch me again
TonightCover my eyes tonight
Don't let me see the lightForever the cold of the winter
Forever the moon in my eyes
Now that you're here
It is always this: I fall to the night and the skyForever I crawl
Forever I cry
I don't know who I am anymore
TonightCover my eyes tonight
Don't let me see the lightAll that we are is never the same
All that we are is all that remains
Remember the sun
Remember the rain
They're never gonna touch me again
Tonight
Don't let me see the light
Don't let me see the light
