I'mma tell y'all niggas like this shit right

Put your hands up trick I'm from a small town called 'Woop a niggas ass'
And I mean, well, woop a nigga ass
I mean, well, beat a bitch to death
And I mean, well, came all the way there
Taka nigga down a dirt path to a junk yard

Where it stankin' at, aha
Put his ass in a plastic bag but just a home
Where you blast him at I'm talkin' 'bout Tie it up with a shoe string
And a picture hook stuck in the thang
Layin' on empty cans and recylin' bags
With some bitchass gatorade, I own a switchblade
Well, cut butter to put in tha damn microwave
Better get you a sharpener baby,
'Cuz that thang only gonna get me aggrivated You look hard
But you really soft, you cotton soft
You try to make me mad, mad
But you just piss me off, you piss me off
Shiit I ain't scared of you nigga, nigga
And I aint scared of them hoes, hoes
And I definiely ain't scared of that tank T shirt

With something real hard, oh Swear to God, motherfucker we be slayin' 'em up
Have one of these niggas, I tear him up
Havin' him sayin' that country boy was bad as fuck
Came hit him with a heater, ain't have to bust
Take the bullets from a gun nigga, add them up
Put them right back in it before I put it up I'm saying this game ain't changing much
Still the same motherfuckers used to sell the drugs
Them same ones that used to come to the club
See a nigga leave a nigga in a thang of blood
In a car with a browd when the police come
Gone before they find out what the hell it was of Dead wrong, you don't hear me tho
But it ain't nothing that nigga ain't done before
It ain't nothing that a nigga won't try again
But remember that sucka's already killed a man
Gone craig, gone craig still froggin' and go ahead
And leap but when you jump over here, jump over here

Try and remember what the fuck I said 'cuz I mean Watch a nigga get sword on for talking that shit

Watch a bitch get rode on for talking that shit

Watch that nigga get laid out for talking that shit

Watch them bitches get drugged out for talking that shit

You don't want none nigga, you don't want none

You don't want none bitch, you don't want none

You don't want none nigga, you don't want none

You don't want none bitch, you don't want none
