

# Child Of The Universe

## Barclay James Harvest

I'm a child of South Africa  
I'm a child of Vietnam  
I'm a child of Northern Ireland  
I'm a small boy with blood on his hands Yes I'm a child of the universe  
Yes I'm a child of the universe  
You can see me on the TV every night  
Always there to join in someone else's fight I didn't ask to be born  
And I don't ask to die  
I'm an endless dream  
A gene machine that cannot reason why Yes I'm a child of the universe  
Yes I'm a child of the universe  
You can see me on the TV every day  
I'm the child next door three thousand miles away I'm a child of South Africa  
I'm a child of Vietnam  
I'm a child of Northern Ireland  
I'm a small boy with blood on his hands Yes I'm a child of the universe  
Yes I'm a child of the universe  
You can see me on the TV every night  
Always there to join in someone else's fight I didn't ask to be born  
And I don't ask to die  
I'm an endless dream  
A gene machine that cannot reason why Yes I'm a child of the universe  
Yes I'm a child of the universe  
You can see me on the TV every day  
I'm the child next door three thousand miles away
